

## **First Aid and Health Policy**

Leeds English Language School is committed to providing a safe environment for staff and students.

The School has a number of trained first-aiders at both sites who can administer basic first aid treatment.

All students are given a new student induction booklet which includes emergency phone numbers of both school staff and the emergency services. During student induction we recommend that students register with their local GP. We recommend that students take out an insurance policy before they travel to the UK.
