

Homestay and Quarantine with Study Links

Who are Study Links?

Study Links was established in 1998 and we have successfully provided guardianship and homestay accommodation for International Students in Leeds and throughout the UK for many years.

You can be assured of high standards thanks to our trusted network of host families and accreditation from the British Boarding School Association, AEGIS and the British Council.

Quarantine Homestay

UK Borders are once again open and thanks to the air bridges many countries can travel to the UK without the need for quarantine. For those countries who do need to quarantine, we have carefully selected host families available, who are fully prepared and keen to help visiting students experience a welcoming, safe and comfortable environment.

Study Links ensures that our families are up to date with current government advice and can offer students the following.

- Comfortable, private bedrooms, often with own television
- Private bathroom facilities (limited number available). Where this is not possible enhanced cleaning procedures will be followed
- Home cooked meals prepared by homestay
- Access to the garden area for fresh air and exercise
- Separate towels
- COVID 19 secure transfers from airport to homestay, homestay to school etc with our long standing, trusted partners (prices available on request)
- A welcoming, safe environment to study, relax and improve levels of English

We recognise that travelling to another country can be an anxious time for students, especially in the current climate. Our host families are on hand to offer advice, a listening ear and even information about the local area for when you are ready to explore. From our experience, having someone around for daily interaction and to help with feelings of boredom and anxiety is a great advantage of homestay.

A student's well being, happiness and safety is of upmost importance and therefore Study Links offers a 24 hour emergency contact number 07884 101679.
